Helicomb maintains a large, on-site tooling inventory to rapidly support MRO activities and replacement part manufacture.

Contact Customer Service for rotables, and consignment sales.

In addition, we can perform reverse tooling for legacy aircraft parts.

### Wide Variety of Materials

Helicomb has extensive experience working with:

- ✓ Carbon
- ✓ Glass
- ✓ Kevlar
- ✓ Phenolic
- ✓ Aluminum
- ✓ Nomex
- ✓ Stainless steel
- ✓ Graphite
- ✓ Quartz
- ✓ Epoxy
- ✓ BMI
- ✓ Titanium
- ✓ Foam core

### Committed to On-time/ Every-time Service

Helicomb's dedicated team of professionals is committed to providing superior quality, quick turn-around time and excellent customer service.

Once parts are received, the average turn-around time (TAT) is just two to three weeks. All parts and services are backed by a two-year warranty. Customers receive a zero time part for far less than buying new.

Helicomb ships domestically and internationally and is registered with the U.S. Department of State as a Manufacturer and Exporter (ITAR).
